01 SUMMARY

DevOps & Cloud Engineer with 5+ years building and running production infrastructure on Azure and AWS. I own delivery end to end — GitHub Actions, Azure DevOps, and ArgoCD across multi-environment Kubernetes clusters — provision every environment from reusable Terraform modules, and hold availability with Prometheus, Grafana, and Azure Monitor. Governance is code too: Azure Policy, RBAC, and automated compliance checks instead of review meetings. Azure Solutions Architect Expert and DevOps Engineer Expert, AWS SAA, KCNA, and Microsoft Certified Trainer.
